

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer sits on a wooden bench. A red cable connects it to a power line filter unit on the floor. To the right, a laptop is on another wooden bench, connected to the same power line filter unit. The background is a plain grey wall.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are lined with white, square-shaped electromagnetic interference (EMI) absorbers. In the center, a white, box-like test fixture sits on a metal stand. A metal frame is visible in the foreground, and the floor is marked with yellow and black safety lines.

Radiation Emission Test Setup (30MHz to 1GHz)

Radiation Emission Test Setup (1GHz to 18GHz)

**Radiation Emission Test
Setup (Above 18GHz)**
