We, MICRO COMPUTER (HK) TECH LIMITED, attest that this device under FCC ID: 2A49R-V3 complies with device protocol requirements and operational restrictions: for indoor client 6XD.

1. Device Protocol Attestation Statement:

- a) the device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
 - b) this device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
 - c) transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.
2. Understanding of Statement acknowledging device restrictions:
- a) Prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,
