

符合RoHS2.0环保要求

1 2 3 4 5 6 7 8

Product information and requirements:

1. Tightly wrapped between each circle
2. Press the coil surface flat to ensure a thickness requirement of 2.4MM (MAX)
3. The coil is tightly attached to the magnetic material
4. Inductance:  $6.5 \mu H \pm 10\%$
5. The dimensions marked with the symbol "⊗" in the diagram are measured by QIP: FAI
6. The dimensions marked with the symbol "⊗" in the diagram are measured by FAI
