

# Quick Start Guide

## **Included In-Box:**

- Device
- USB Cable

## **Activate Device:**

Step 1: Power on the device by pressing and releasing the power button on the bottom.

Step 2: Follow instructions on the screen to complete the set up and enable the features.

Step 3: To charge your device, connect one end of the USB cable into your device and the other end into the power supply (not included). Connect the power supply into a nearby power outlet.

## **Connecting Device to Network:**

Step 1: Select your network from the list of displayed SSID's.

Step 2: If required, input password.

## **Registering your Device:**

To use many of the Device features, you must register it to your account. If you have not yet registered, please do so now. Prior to registering, connect to a network. Once connected, you can register the device to your account.
