

## **Manual**

Thank you very much for purchasing X2 Dongle.

Please be sure to read this manual before using your new X2 Dongle.

Keep this manual for future reference.

## **About X2 Dongle**

This product is a dedicated communication dongle that can connect up to two SteamVR devices.

## **How to Use**

1. Connect the X2 Dongle to the USB terminal of the PC via the USB cable.
2. Please keep the X2 Dongle enough away from PC, and place it in the stable place.
3. Please read the manual of your SteamVR device carefully and perform pairing. There are no operations to be performed on the X2 dongle.

## **Included Items**

- X2 Dongle x 1
- USB Cable x 1
- Manual x 1

## **Warning**

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

## **FCC Statement**

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and

used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in the portable exposure condition without restriction.
