

Magnetic Wireless Charging

User Manual

Product parameter

Parameter	
Productname	Magnetic Wireless Charging
Power input	9V \approx 2A / 5V \approx 2A
Power output	5W/7.5W/10W/15W
Charging distance	\leq 5mm
Material	ABS+PC
Size	95*62*29 mm

Product bescription

Applicable equipment

- For devices with magnetic wireless charging function.
- Compared with the old model, the charging speed is 20% faster.

Instructions for use

1. The outlet clip is installed on the machine.
2. After the USB-C port of the data cable is plugged into the wireless charging.
- 3.The area where the mobile phone is placed in the wireless charging neutrally absorbs the mobile phone, enter charging mode.

Packing list

- Online charging X 1
Out clip X 1
USB cable X 1
Manual X 1

Made in China

FCC Warning statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC Radiation exposure limit set forth for an uncontrolled environment. The equipment should be installed and operated with a minimum distance of 20cm between the product and your body.
FCC ID: 2A4HE-C16
