

## The main function

- Luminescence technology, no glare, no strobe, soft lighting eye protection
- LED with ultra-long life and minimal light decay
- Control switch, brightness color temperature adjustable, easy to operate
- Three - color temperature dimming, more comfortable
- Three-dimensional omni-directional lighting Angle to meet a variety of environmental requirements
- Folded structure, smaller volume
- Calendar clock display, with alarm clock function
- Clock control function
- Use digital technology,LCD backlight can be turned on/off
- Qi wireless charging function

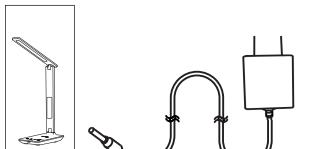

## Technical parameters

Power input:	12V
USB power output:	5V2.1A
Wireless Charging Power	10W
LED MAX	6W
Brightness:	500 lm
Color temperature:	3000K-6000K
CRI	>95Ra
shell material	ABS+PS

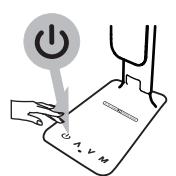

## In the accessories

### Plug in the device

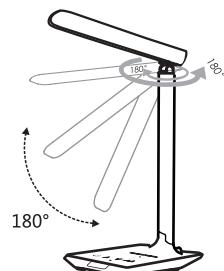

The instructions      Adapter and power cord

## Product service warranty card

This product from the purchase date, the normal use of the guarantee free service for one year. If the warranty period will be charged a certain part cost. If you need to replace the parts of the service, according to the company service parts overhaul price list.

In the following cases, no warranty will be granted free of charge, although during the period of the warranty.

1. Failure or damage caused by natural disaster, earthquake, rodent disaster, public hazard or not in normal use.
2. Failure or damage caused by delivery, movement and improper storage after purchase.
3. Loss products such as accessories, batteries, bulbs, etc
4. The record of guarantee information is incomplete, the date of purchase is not filled in, and the seal of the purchasing store is not sealed.
5. No warranty for special environment, such as humid, sulfur area, high salt area near the sea and corrosion-prone area on the ship.
6. Users fail to follow the instructions.
7. Products sold under special agreement.

When the products are returned to the factory for repair, they should be properly packed to avoid damage in transit.

The manufacturer shall not be responsible for any fault caused by disassembling or assembling the product by itself.

### FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

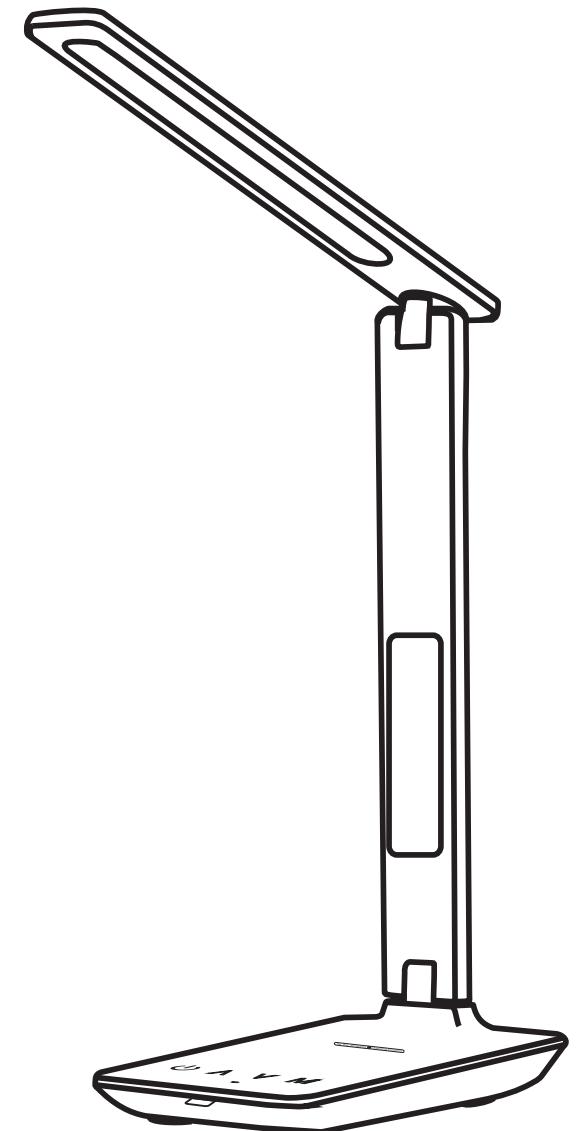

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
