

# CPLID TV BACKLIGHT

## INSTALLATION

### 1. Test Your Light

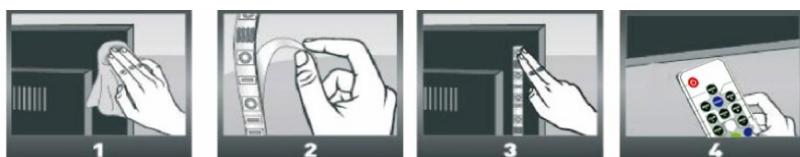

Plug the light into a USB port of your TV, and turn on TV, the light will on. Pull off the plastic piece on the bottom of the remote, and check it.

### 2. Plan Your Route

Before attaching the strips, measure the area where the strips attaching to, plan the route and let the strips to cover all sides of your TV.

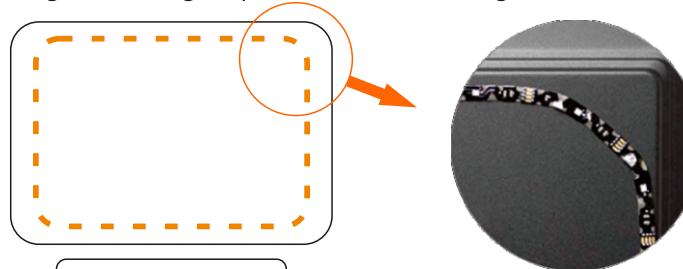

### 3. Clean the Mounting Surface

Use the provided wipes to clean the mounting surface. The mount surface must be solid, oil-free and dust-free, otherwise the strips will fall down after a while.

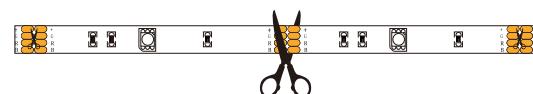

### 4. Attach the Strips

Peel off the protective film from the adhesive strips, and stick the strips from the USB cable side. Please lightly bend the strips to fit along the TV corners, excessively folding or bending strips will lead to a damage.

### 5. Cut the excess strips at the "+GRB" mark.

**Note:** If you have any problems with the light, please feel free to contact us.

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
