Basic Operations

MP3 MODE: Press and hold the power button for 3 seconds, the Blue LED light flash, and then turn to playback mode. Connect the USB Charging/Transfer cable into your computer's USB port (your computer will automatically recognize K7 flash disk).

Adding, copying and deleting songs on your headphone player are like using USB flash disk.

(Note: Must be power on for data sync before connect PC)

BT MODE: Press the Power button once to switch to BT mode when music playing. Then you will hear the tone. Led flashing blue and red lights, you can connected with K7 use your phone via Bluetooth. It will POWER OFF automatically after 5 minutes if you do not have any operating.

ANSWER/REJECT: Click once the MFB to answer phone calls when there are incoming after bluetooth connected, click again to hang up calls. Quickly click twice to reject when call incoming.

VOLUME: Long press (2 sec) the +/- button to volume up or volume down. Single press the vol +/- to skip forward or backward songs.

PAUSE/PLAY: While music is playing, click the Play Key to pause, and then click again to re-play songs. The playlists of the songs will be arranged in the order in which of the copied files go to named K7 disk.

CHARGING: Use the original charging cable (included) to charge the headphone. Red LED means it's charging. When charging is completed the red LED will turn into blue if you connect with computer. If charge with 5V charger the red LED will go out when fully charged

Power ON/OFF: Press and hold the ③ button 3 seconds for Power ON or Power OFF. Click once for Mode switch.

OTG Download: Download music songs use your own OTG adapter cable. Connect headphones with the original data cable and then turn on your headphone . Copying the songs as the flash disk as usual after it recognized.
(Note : The OTG function need you phone support)

RESET: Press and hold the power button for 10 seconds to force reset

ISSUE SOLVE

1. If the operating loss of control will not switch on/off, press and hold the power button for 10 seconds to reset.
2. If the LED does not light up or could not be recognized after connected the computer, need to check the USB cable is correct or not and whether the USB cable is fully inserted(Do not use an extension cord, need to use the original data cables plug directly into the charger or computer USB interface)

WEARING

Wear the headset on each side of the neck, the speaker is located in the cheek bone. Shrink the length of the silicone adjustment belt fits the head circumference, making it more comfortable and then it will not fall off with the extreme sports.

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
