*Thank you for purchasing **Superbccco Multi-Device Bluetooth Keyboard**. Each unit has been manufactured to ensure safety and reliability with life-time warranty. Before using for the first time, please read the instructions carefully and keep them for further reference.*

PACKAGE CONTENTS

- 1 * Bluetooth Keyboard
- 1 * USB Cord
- 1 * User Manual

Please note:

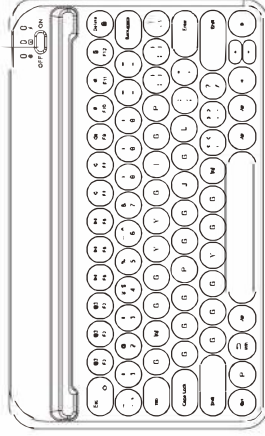

- ★ Before use, please verify your device has Bluetooth compatibility as well as enough power before attempting to connect to the keyboard.
- ★ In order to prolong battery life, it is highly recommended to charge the keyboard only when the keyboard power light is flashing and only with the original power cord, in case dysfunction or messy code may be caused when using other brand's power cord to charge while typing.

BLUETOOTH KEYBOARD PAIRING

Step 1: Turn on the power switch. The Bluetooth indicator will stay on for 3 seconds and then turn off.

1

Power on/off switch

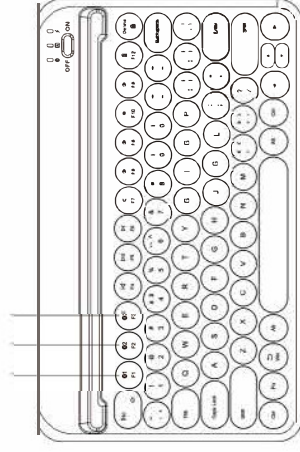

Charging Port

Step 2: Press and hold Bluetooth Channel 1, the indicator starts flashing and then entering pairing mode.

2

BT1 BT2 BT3

Step 3: Turn on your device, enter "Setting"->"General", and turn on the Bluetooth function. Your device will automatically or manually search for any Bluetooth devices. Once it's found the Bluetooth keyboard (Name: Superbccco HB206), click on and add the device.

Step 4: Once successfully paired, the indicator light will turn off and the keyboard will be ready to use. If failed, enter sleep mode within 180 seconds, and then press BT1 first before pairing once more.

Please note:

- ★ Bluetooth Channel 2/3 connection the same operation as BT1.
- ★ Press BT1/BT2/BT3 to switch between devices.
- ★ Reconnection: press BT1/BT2/BT3 only under connected status when getting back from sleep mode, if disconnected completely, repair them once more.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
