FCC STATEMENT	
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.	
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:	
—Reorient or relocate the receiving antenna.	
—Increase the separation between the equipment and receiver.	
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.	
—Consult the dealer or an experienced radio/TV technician for help.	
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:	
(1)This device may not cause harmful interference, and	
(2) this device must accept any interference received, including interference that may cause undesired operation.	
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.	
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.	

FAQ for Bluetooth connection	
Problems or Questions	Solutions
The headphones be turned off automatically in 5 minutes	Headphones be set to be powered off with any Bluetooth device in 5 minutes, which for power saving purpose
Bluetooth pairing failed when headphones with a TF inside	1)Take out the TF card 2)Pair the headphones with Bluetooth device again
The headphones will be paired with last Bluetooth device automatically, in effective range upon headphones powering on	1)Power off your last Bluetooth device or remove the Bluetooth record from last device 2)Power on your headphones again, and pair with new Bluetooth device
Could not find the pairing name on Bluetooth device	1)Clear those previous pairing names on Bluetooth device 2)Search Bluetooth devices to connect the headphones
Bluetooth couldn't connect	1)If have tried above methods and still could not connect, pls press and hold buttons of "-" & "+" at the same time for 5 seconds to reset the headphones 2)Search bluetooth devices to connect the headphones

Problems or Questions	Solutions
How to connect to 2 devices simultaneously?	1)Pair with your first device 2)Turn off the Bluetooth on the first device, then pair with the second device 3)Turn on the Bluetooth on the first device to connect again 4)Now your headphones are connected to the 2 devices at the same time
What type of device is compatible?	The headphones are compatible with all devices that support Bluetooth or 3.5mm plug cables. A wireless transmitter (not included) needs to be prepared when connected with a non-Wireless enabled TV/PC
