FAQ

1. Please put the iPhone/iPad/iWatch at the center of charging area.
2. To achieve the fast charging, please use a charger above QC18W or PD20W to supply power to the wireless charger.
3. The charging distance is 0-2mm, please don't wear protective case which is thicker than 2mm.
(Magnets and metal attachments or credit cards will influence the charging ability, please remove them before charging.)
4. The watch has temperature control feature, when the temperature reaches 45°C, device will stop charging automatically. If the temperature becomes normal, it will continue to charge.
5. The lower temperature is, the faster charging speed is. The charging speed is faster in winter than in summer.
6. Please don't charge in high temperature and humid environments to avoid damage of circuit.
7. Put it at the place that children can't reach to avoid unnecessary accidents.
8. Please place the charger away from flammable and explosive liquids or gases.
9. If you have any problems with this wireless charger, please feel free to contact the seller/service, we will offer you a best solution within 24 hours. Your safety and experience is our top priority, we got it all covered.

FCC Warning Statement

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is device.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. When use the device, a distance of 20 cm between the radiator and user's body shall maintain.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
