FCC:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Getting Started

Place the clock on the clock charging zone and plug the adapter into a standard household outlet, you will see 12:00 AM and the icon “ ⚡ ” on the display, the clock is ready to be set.

Notice

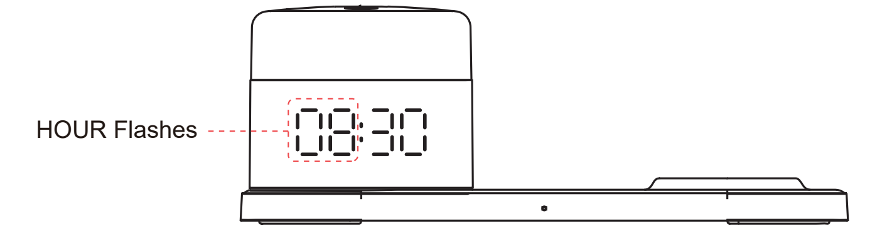
If the display is “blank” after plugging in, please check whether the “DISPLAY DIMMER” on the back is at a high position.

Battery Operated Setting

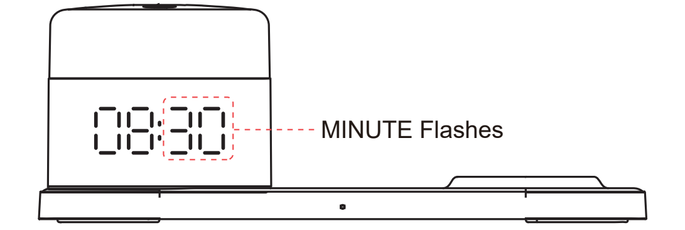
1. The built-in 1200mA lithium battery ensures the clock functions normally, including the time, alarm and nightlight settings.
2. Please return the clock to the clock charging zone for charging.

Time Setting

1. Press the “ 🕓 ” button to enter HOUR setting. The HOUR digits will flash on the display. Press “ ◁ ” or “ ▷ ” button to advance to the correct hour.



2. Press the “🕓” button to confirm and enter MINUTE setting. When the MINUTE digits flash, press “ ◁ ” or “ ▷ ” button to advance to the correct minute.



3. Press the “ 🕓 ” button to confirm and enter time format(12/24H) setting. Press “ ◁ ” or “ ▷ ” button to select time format. When using the 12 hour time format, AM/PM icon will appear on the display to suggest morning/afternoon time.

4. Press the “ 🕓 ” button to confirm and exit the time setting mode.

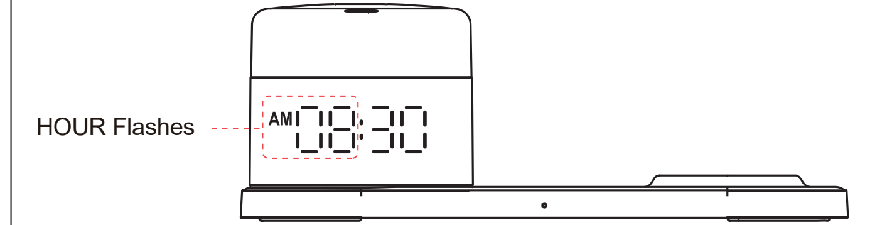
Notice:

The clock will exit automatically from the TIME setup mode if no action is taken within 5 seconds.

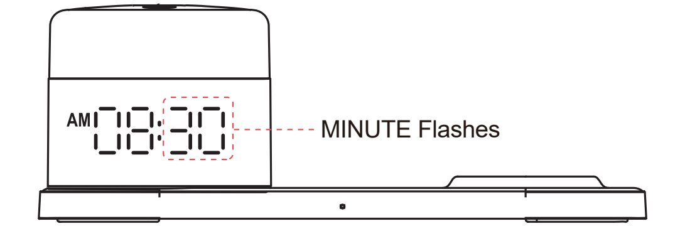
(Action refers to pressing the desired button for setup)

Alarm Setting

1. Press the “⏰” button to enter ALARM HOUR setting. The HOUR digits will flash on the display. Press the “ ◁ ” or “ ▷ ” buttons to advance to the desired hour.



2. Press the “ ⏰ ” button to confirm and enter ALARM MINUTE setting. The MINUTE digits will flash on the display. Press the “ ◁ ” or “ ▷ ” buttons to advance to the desired minute.



3. Press the “ ⏰ ” buttons to confirm and exit the alarm setting mode.

Notice:

The clock will exit automatically from the ALARM setup mode if no action is taken within 5 seconds.

(Action refers to pressing the desired button for setup)

Alarm Pause & Snooze

When the alarm goes off, you have two options:

1. Press “ ⏰ ” button to stop the alarm when it's ringing. Alarm will go off on the next day.
2. Press “ 💡 ” button to snooze, the alarm will go off again 9 minutes later.

Notice:

The alarm will automatically turn off after 30 minutes if no action is taken.

Alarm On/Off

1. When the alarm time is set, press and hold the “ ⏰ “ button for 2 seconds to turn on the alarm.
2. Press and hold the “ ⏰ ” button for 2 seconds to completely turn off alarm and the indicator “ ⏰ ” will disappear on the display. The alarm will NOT go off on the next day.

Alarm Volume Setting

Press the “ ◁ ” or “ ▷ ” to select the volume level (1-15 level adjustable).

Power On/Off

Press and hold the “ 🕓 ” button on the top of clock for 2 seconds to turn ON/OFF the alarm and the time.
