Operating indicator: The blue working indicator is always on during the charging process of the mobile phone, which is off when it is not being charged or fully charged; it will flash in case of any charging fault.

1. **Phone charging:** Place the phone in the phone charging pad to charge. The phone screen lights up and displays the charging icon and charging status. The phone screen is normal.

2. Earphone charging: Place the earphone flatly on the earphone charging pad to charge. The earphone indicator light will light up and

3. iWatch charging: Place the watch in the watch charging pad to charge. The watch displays the charging icon and is charging normal.

Standby: Lights off.

FOD, Abnormal: Blue light flashes quickly.

Warm Reminders

1. Make sure your devices support wireless charging before using.
2. It is recommended to use the original charging cable and adapter.
3. Please do not bring magnetic cards, bank cards, IDs with chips, etc. close to wireless charging, otherwise your cards and IDs may become invalid. At the same time, please stay away from all magnetic recording materials.
4. The optimal charging distance between your phone and the wireless charger panel is within 3MM. If your phone is not charging properly, please move your phone slightly to find the optimal position for your phone and the wireless charger to work together.
5. This product is not waterproof, please keep it away from all liquid materials.

6. There should be no metal substance between the back of the phone and the contact surface of the wireless charger, otherwise the wireless charger will not work properly.

7. During the process of charging the mobile phone, the wireless charger and the mobile phone will generate moderate heat, which is normal as long as the temperature does not exceed 60°C.

8. The temperature protection of this product stops working when the operating temperature is greater than 75 °C, and resumes normal operation when the temperature of the wireless charger drops below 55 °C.

9. Do not disassemble, modify or repair the wireless charger by yourself, as this may cause performance problems and malfunctions that are not covered by the warranty.
10. In order to extend the charger life, when not using it for a long time, please power off the wireless charger and store it properly.

Lifetime Warranty

We would like to serve you with any issues of the wireless charger.
24/7 for you, please feel free to contact us.

About the FCC
