 <p>X2</p>	<p>Precautions for use</p> <ul style="list-style-type: none"> • The original Apple adapter DC5V/1A can be used, and the powerbank output specification is DC5V/1A/2A. • When using this product, check to make sure that the power adapter output voltage used is "DC5V". If the voltage is out of range, it will be permanently damaged; if the voltage and current are insufficient, it will not work properly. • Recommended for use in environments below 26°C. • If used, please disconnect the power to avoid power consumption. <p>Product parameters</p> <p>Interface:USB Input:5V=1A Output:2.5W</p> 	<p>Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>FCC Warning Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.</p> <p>NOTE: This device complies with part 18 of the FCC Rules. Information to the user: 1. The device has potential interference, but the interference is very small and meets the requirements of the FCC rule. 2. The potential interference is simple, please refer to the manual. The user can take simple measures to correct the interference. Such as staying away from interference sources, turning off interference sources, etc.</p> <p>RF exposure compliance statement: The equipment complies with FCC Radiation exposure limit set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.</p>
