

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On the left is a black plastic housing with a yellow battery inside. The battery has text: "YDY 652830", "7.8V 680mAh", and "2021 10 30". To the right is a black plastic housing with a black battery. Both are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 1	 A photograph showing a solder board component. It is a black rectangular board with various electronic components, including a yellow battery, a black battery, and a black plastic housing. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).

Solder Board-Component View 2	 A photograph of a small electronic component, likely a SIM card reader or similar interface board, mounted on a blue textured surface. The component is connected to a larger board via gold-colored flexible connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is positioned between the 10 mm and 50 mm marks on the ruler.
Solder Board-Component View 3	 A photograph of a small electronic component, likely a SIM card reader or similar interface board, mounted on a blue textured surface. The component is connected to a larger board via gold-colored flexible connectors. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is positioned between the 10 mm and 50 mm marks on the ruler.

Solder Board-Component View 4	 A photograph showing a small, rectangular electronic component (likely a module) mounted on a blue solder mask. The component is positioned next to a black ruler with white markings, which shows measurements in millimeters (mm). The component is oriented vertically, and the ruler is placed horizontally below it. The component has various components visible, including a small display or sensor area and several pins or connectors.
Antenna View 1	 A photograph showing a small, black, rectangular electronic component (likely a module) mounted on a blue solder mask. The component is positioned next to a black ruler with white markings, which shows measurements in millimeters (mm). The component is oriented horizontally, and the ruler is placed horizontally below it. A red box highlights a specific area on the component, labeled "BT/WIFI/GPS Ant".
