

## Double Color/High Low Beam Wiring Harness Kit With Wireless Remote Control Instruction manual

### Specification:

Name: Double Color/High Low Beam Wiring Harness Kit With Wireless Remote Control  
Switch Material: Plastic, Keyboard switch (with back glue) can be installed in any part, which is more convenient to operate.  
Switch Relay: DC 12V Amp : 40A power relay fuse :40A blade fuse  
Number of Lights: One Light  
Recommend Max Wattage: Maximum support for 300W and single lamp working below 300W.  
Input power:DC12V  
Length: around 11.48ft /3.5M  
Material: high quality PVC, copper and metal  
Highest Working temperature: -40 ~ 85 degree Celsius

### Wide Application:

Professionally assembled wiring loom kit suitable for 12V HID ,12Vhalogen, 12V LED driving lights, offroad lights bar, offroad spot lights, fog lights, work lights, replacement fog lamps add-on fog lights hid lights etc.

# Remote Wiring Harness Kit Instruction Manual:

## Specification:

Name: remote wiring harness for Car Fog Lights Work Driving Lights Bar

Switch Material: Plastic, Keyboard switch (with back glue) can be installed in any part, which is more convenient to operate.

Switch Relay: DC 12V Amp : 40A power relay fuse :40A blade fuse

Number of Lights: One Lights

Recommend Max Wattage: Maximum support for 300W and single lamp working below 300W.

Input power: 12V/24V (if the battery of your car is 24V, just replace the relay with 24V) default 12V

Core: 14AWG (2 square)

Length: around 11.48ft /3.5M

Material: high quality PVC, copper and metal

Highest Working temperature: 85°C

Plug: universal plug

## Package included:

1 x remote Wiring Harness Kit

1x Safety blade fuse

1x Instruction manual

## Wide Application:

Professionally assembled wiring loom kit suitable for 12V HID ,12V halogen, 12V LED driving lights, offroad lights bar, offroad spot lights, fog lights, work lights, replacement fog lamps add-on fog lights hid lights etc.

**FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
