

3-in-1 Wireless Charger

Compatible with Magsafe Devices

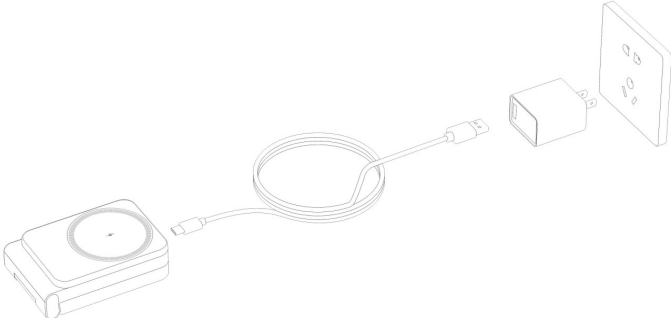

Certified

Up to 15W

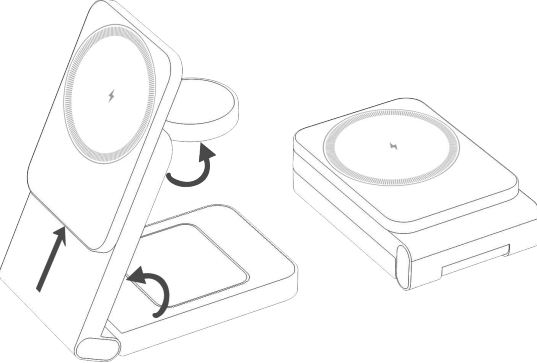

1

Turn on the Power:
Connect the USB-C cable to the power adapter and plug it into an outlet.

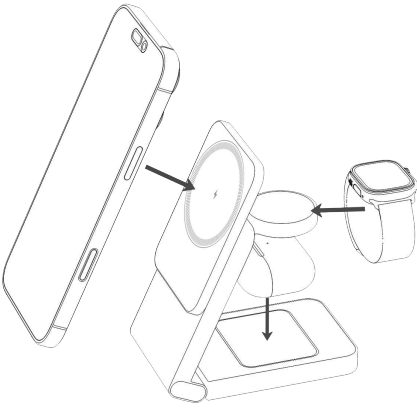

2

When you open the top cover to sixty-five degrees, the watch charging module will automatically pop up. The angle it pops up to will be parallel to the base.
When charging the phone, the main body of the phone can be slid and pushed to the highest position.

3

Put Phone, Watch, or Earbuds to Charge:
Place your devices on their respective charging areas.

Indicator Light and FOD Instructions:

Power Off: No light

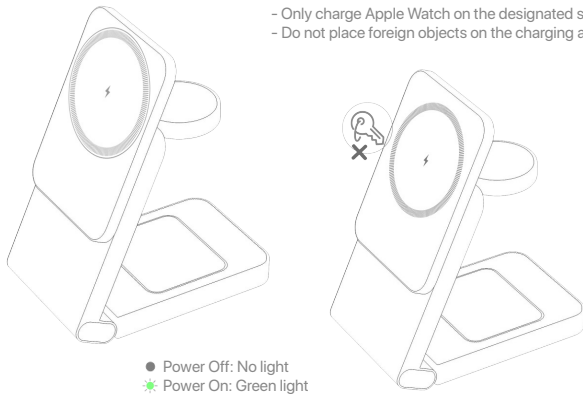

Power On: Green light

Phone Charging: Blue light

Error or FOD: Blue and green lights alternately flashing

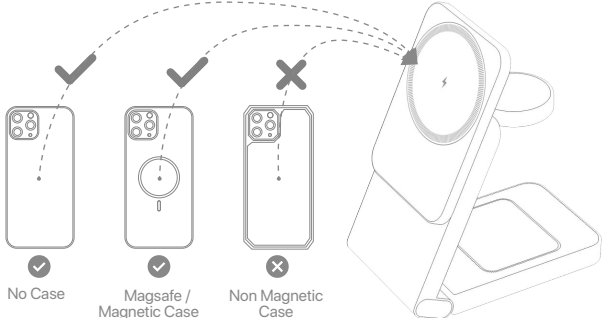

Only charge Apple Watch on the designated spot.

Do not place foreign objects on the charging area.

!

Magsafe Compatibility:
To ensure Magsafe compatibility, your phone needs to be from the iPhone 12 series or later. The phone can be used bare or with a Magsafe-compatible magnetic case. Non-magnetic cases will block the magnetic connection, preventing the phone from staying attached to the Magsafe charging pad.

Suitable Charging Equipment

Smartphones: iPhone 12~16 series, iPhone 8~11 series (MagSafe protective cases required).
Apple Watches: Series 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, Ultra 2, Ultra 1, SE.
Earbuds: Wireless earbuds such as AirPods Pro, AirPods with wireless charging case, and other Qi-compatible earbuds.

Product Parameters

Input: 9V=2A, 9V=2.7A, 12V=2A
Phone Output: 15W (Max)
Watch Output: 3W
Earbud Output: 5W

Packing List

Wireless Charger x 1
Power Adapter x 1
USB C to C Cable x 1
User Manual x 1

Safety Instructions

WARNING: Failure to follow these instructions could result in fire, electric shock, injury, or damage to the user, product, or other property.

1. Connect the power supply of the wireless charger into a power outlet that is close by and easy to disconnect from the source.

2. Use indoors and in a dry location only; avoid charging near sources of heat and humidity.

3. Keep the wireless charger and power supply away from any liquids or moisture.

4. When not in use for a long time, unplug the power supply and cut off the power.

5. Do not store your device in very hot or very cold locations. It is recommended to use your device at room temperature.

6. Do not use if visible defects are observed on the wireless charger or power supply.

7. Do not attempt to service, modify, or disassemble the wireless charger or power supply.

8. Use of a power supply not recommended or sold by Anylincon may result in an increased risk of fire, electric shock, injury, or damage to the user, product, or other property.

9. Wireless charging power transmission rate is regulated by the wireless charging device receiving power, which can be influenced by factors like proprietary charging protocols, ambient temperature, current battery percentage level, and age of the device being charged.

10. Avoid using the product in humid, dusty, or high-temperature environments.

11. Ensure proper alignment of devices on the charging areas to avoid overheating and inefficiencies.

CAUTION: If you experience problems with the wireless charger, please discontinue use, unplug the power supply from the AC socket, and contact Anylincon for assistance.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Thank you for choosing !
