

Solder Board-Component View 12	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 12'. The component is rectangular and features a large, circular, black, recessed area in the center. It is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 13	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 13'. The component is rectangular and features a small, rectangular, gold-colored connector or component in the center. It is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler is also visible on the left side of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 14	 A photograph of a green printed circuit board (PCB) component, labeled 'OS20C10v1.2', mounted on a blue textured surface. The component is rectangular with a central square area containing a microchip. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 100 mm mark.
Solder Board-Component View 15	 A photograph of the same green PCB component, labeled 'OS20C10v1.2', mounted on a blue textured surface. The component is rectangular with a central square area containing a microchip. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with the component's length corresponding to the 100 mm mark.

Solder Board-Component View 16	 A photograph showing a rectangular yellow and white battery component. The battery is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The battery has a white label with some text and a small connector with red and black wires.
Antenna View	 A photograph showing a green printed circuit board (PCB) with various electronic components. A black rectangular antenna is connected to the board by a thin black wire. The antenna is highlighted with a red box, and a red line points to it from a label "WIFI Antenna" in a red box. The PCB is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
