DO NOT EXPOSE TO FIRE OR HIGH TEMPERATURE. ONLY CHARGE WITH A 5V 2A USB POWER SOURCE. DO NOT USE IF THE DEVICE IS SWOLLEN,

LEAKING, OR DAMAGED, INTENDED FOR INDOOR USE ONLY. DO NOT OPERATE IN WET OR DAMP ENVIRONMENTS. KEEP OUT OF REACH OF CHILDREN AND PETS.

- The operation of this device is prohibited on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet in the 5.925-6.425 GHz band. Operation of transmitters in the 5.925-7.125 GHz band is prohibited for control of or Communications with unmanned aircraft systems.
- This device is restricted for indoor use.

7. NOTE:

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning (Part 15.21) changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. RF Exposure (FET Bulletin 65) To comply with FCC RF exposure requirements for mobile transmitting devices, this transmitter should only be used or installed at locations where there is at least 20cm separation distance between the antenna and all persons. Information to the User - Part 15.105 (b) Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: * Reorient or relocate the receiving antenna. * increase the separation between the equipment and receiver, * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. * Consult the dealer or an experienced radio/TV technician for help.
