Output connector type	USB-C、USB-A
Support protocols	USB-C supports PD3.0、PD2.0、PPS、QC3.0、QC2.0、QC4.0+、APPLE2.4A、SAMSUNG5V2A、AFC、FCP、SCP
Adapter mode	
USB-C output	5V3A, 9V3A, 12V3A, 15V3A, 20V3A
USB-A output	5V3A
Wireless output	5W Max
Night light/watch output	2.5W
Total output	60W Max

Multi-port output	USB-C+USB A: 45W+15W Max
	USB-C+Headphones/Watches: 45W+5W Max
	USB-C+USB A+Headphones/Watches: 30W+15W+5W Max
	USB-C+USB A+Headphones/Watches: 30W+15W+5W+2.5W Max
<p>- When using C port for 45W or 30W full charge in adapter mode, then using wireless charging will cause wireless charging to pause or enter low power intermittent charging state due to environmental and equipment temperature changes, this phenomenon is controlled by the wireless charging receiving device, self-protection function triggered by temperature changes, it is recommended that wireless charging be performed at the right temperature or a reasonable combination with the use of the product state.</p> <p>- In the adapter mode, when the headphone or watch is detected to be charging, take away the headphone or watch at this time, the power switch of C port or A port will be switched after about 2 minutes in order to optimize the charging experience.</p> <p>- Wireless Charging area A&B&C can not work at the same time, the maximum power of wireless charging is 5W</p>	

Special substance statement

Name of parts	Toxic and harmful substances or elements						10
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)	
PCB	X	O	O	O	O	O	
plastic	O	O	O	O	O	O	
Metal	X	O	O	O	O	O	
Accessory	O	O	O	O	O	O	

This table is prepared according to the provisions of SJ/T 11364.

O: means that the content of the harmful substance in all homogeneous materials of the part is below the limit requirement of GB/T 26572 standard.

X: indicates that the content of the hazardous substance in at least one of the homogeneous materials of the part exceeds the limit specified in GB/T 26572 standard.

The product complies with EU RoHS 2.0 Directive (2011/65/EU)

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
