

DL-CD-011 Wireless Charger Manual 版本: A0

1 Technical Specifications:

1.1 Input Voltage: DC29V 2A (Power supply)

1.2 Ambient Temperature: -15℃ ~ +40℃

1.3 Relative Humidity: 20% ~ 75%

1.4 Wireless Charge output: 10W, Support Apple 7.5W quick charge、Samsung 10W quick charge and EPP10W quick charge.

2 Operation Instructions

1、1#: Power input cable, port 01。

2、2#: Wireless charging area. By adjusting the coil of the load device to coincide with the charging area, wireless charging of the load device can be realized.

3 Warning

- 1) Metal objects cannot be placed on wireless charging
- 2) No heavy objects can be placed on the wireless charging
- 3) The mobile phone without wireless charging cannot be charged at the charging place.

4 FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
