User's Guide

TYPE:	2.4G	Bluetooth
Distance:	30m-80m	10m-20m
Memory:	2MB	Printing Contract：≥25%
Working current：180mA		Standby current：30mA
Working time：3 to 7days		Charging power：5V-400mA

Scanner parameters：

Sensor：640*480 CMOS		Indication：Buzzer & LED
Trigger Mode：Auto-Sense		

	13mil-EAN13	50-250mm	Resolution：4mil
250 LuxDepth of Field	4mil-code39	60-100mm	CPU：ARM 32-bit Printing Contract：>25%
	20mil-QR	40-300mm	Decoding speed：500/sec
	10mil-PDF417	40-280mm	

Scanning {HYPERLINK "app:ds:angle"}：Angle of rotation360°，inclination± 65°，declination ± 60°

Anti-interference：0-100000Lux Max

Decode Capability：
1D：UPC-A，UPC-E，EAN-8，EAN-13，Code 128， Code 39， Code 93， Code 11， Interleaved 2 of 5 ， Matrix 2 of 5，Standard 2 of 5，Coda bar，MSI Plessey，RSS，etc.
2D：QR Code, Data Matrix，PDF417，Aztec code，

Button life：500,000 times	LED life：100000 hours
Drop test：1.5m	Interface：USB，USB-COM，USB-HID

Guarantee Item:

1. 3months upon date of purchase.if here was function problem.we would offer the same item subject to goods and packing maintain perfect.

2. 1year upon date of purchase,we will guarantee to keep the goods in repair. (not includingfittings)

3. Guarantee service is subject to normaily using.

4. All of damage by man–made(tear open the housing,tear off the sticker,unnormally using),of losing this card,we will not guarantee.

General Settings:

Factory Default | Suffix + CR

Suffix+LF | Suffix+LF+CR

Suffix + Tab | Clean Suffix

General Settings:

Version | Battery Level

Mute | High volume

Low volume | Medium volume

Warning:

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
