Mouse Specifications

System support	XP Win7/8/10
Wireless data transfer	2Mbps
Frequency	2403.85MHz-2479.85MHz
Channel	16
Engine	Optic
Mouse resolution	800-1200-1600 DPI
Mouse return rate	250Hz
Distance	20m
Working voltage	1.5V
Working current	10mA
Standby current	0.4mA
Sleeping current	30uA
Mouse button life	Over 5 million
Mouse Size	99x64.8x36.5mm

Keyboard Specifications

System support	XP Win7/8/10
Wireless data transfer	2Mbps
Frequency	2403.85MHz-2479.85MHz
Channel	16
Distance	20m
Working voltage	3.0V
Working current	10mA
Sleeping current	60uA
Keyboard keystroke life	Over 8 million
Keyboard size	435x143x26.41mm

Package Includes

- ▶ 1 x Wireless Keyboard
- ▶ 1 x Wireless Mouse
- ▶ 1 x Product Manual
- ▶ 1 x USB Receiver(in mouse battery storage)

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two

conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
