A photograph of a green printed circuit board (PCB) with various electronic components. A red arrow points to a silver, zigzag-shaped antenna on the right side of the board, labeled "Antenna" in a red box. The board features several integrated circuits, including a large black chip labeled U5, and numerous surface-mount components like resistors and capacitors. Various test points and pads are labeled with codes like KL1, KL2, KL3, KL4, L1, L2, L3, L4, L5, L6, L7, L8, L9, L10, L11, L12, L13, L14, L15, L16, L17, L18, L19, L20, L21, L22, L23, L24, L25, L26, L27, L28, L29, L30, L31, L32, L33, L34, L35, L36, L37, L38, L39, L40, L41, L42, L43, L44, L45, L46, L47, L48, L49, L50, L51, L52, L53, L54, L55, L56, L57, L58, L59, L60, L61, L62, L63, L64, L65, L66, L67, L68, L69, L70, L71, L72, L73, L74, L75, L76, L77, L78, L79, L80, L81, L82, L83, L84, L85, L86, L87, L88, L89, L90, L91, L92, L93, L94, L95, L96, L97, L98, L99, L100. The board is mounted on a blue, textured surface.
