

WIRELESS MEAT PROBE

CONNECTING TO THE Vida by PADERNO APP

PROBE OVERVIEW

REPEATER/CHARGING DOCK OVERVIEW

- 1 Install the Vida by PADERNO app onto your smart device.
- 2 Remove the probe from the repeater.
- 3 Follow screen prompts to select and add the new Vida by PADERNO wireless meat probe.

App Features

- Use multiple Vida by PADERNO wireless probes and the Vida by PADERNO Smart Pellet Grill at the same time.
- Name each wireless probe for easy reference.
- Set custom or preset meat temperature targets.
- Alarm notification, if selected, when food is done.
- Monitor the battery levels of the repeater and the probe.

USING THE WIRELESS MEAT PROBE

The probe and repeater will power on once the meat probe is removed from the repeater.

Insert the probe into the meat. Position the tip in the middle of the meat and insert up to the depth indicator line.

From the Vida by PADERNO app, set the desired target temperature or meat doneness preset.

When finished, wash the meat probe to remove bacteria. Dry using a cloth.

Place the meat probe into repeater case. After a few seconds, the repeater will turn off and the probe will be charging.

CHARGING THE REPEATER

Before initial use, charge the repeater for 2 hours.

Connect the USB-C cable to the charging port on the side of the repeater.

Battery Charge Scale

NOTE: The battery icons flash while charging.

WARNING

Do not expose the probe to high temperatures or direct flames. Do not use the probe when searing.

The repeater is not waterproof. Do not immerse in liquids.

Always fully insert the probe into the meat. Do not allow the probe to come into contact with hot cooking surfaces.

Do not submerge the probe in liquid. It is water resistant, not waterproof. Hand wash with soap and water.

The probe will be very hot during and immediately after use. Do not touch. Always wear heat-resistant gloves.

This product is not a toy. Keep away from children and store out of reach.

Do not use in a microwave oven.

Do not place the repeater on or near hot surfaces.

CAUTION

Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of foodborne illness, especially if you have certain medical conditions.

Specifications:

Supported Devices iOS, Android	Repeater Battery 1000 mAh Li-ion	Charger USB-C (5V,0.5A)
Connection Bluetooth 5.2	Refresh Frequency 15 sec	Temperature Range 14~221 °F (-10~105 °C)
Temperature Accuracy ± 1.8°F (± 1°C)	Probe Battery 5 mAh LTO (2.7V)	Probe Charge Time 30 min

IC Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

FCC Warning

This device complies with part 15 of FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference, including interference that may cause undesired operation.

WARRANTY 1 YEAR.

This product carries a one (1) year warranty against defects in workmanship and materials. At its discretion, Trileaf Distribution agrees to have any defective part(s) repaired or replaced free of charge, within the stated warranty period, when returned by the original purchaser with proof of purchase. This product is not guaranteed against wear or breakage due to misuse and/or abuse.

FCC ID: 2A5EV-FM2106PROBE
IC:28929-FM2106PROBE

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:(1)

This device may not cause harmful interference, and (2)

this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by

the party responsible for compliance could void the

user's authority to operate the equipment.

This equipment complies with FCC radiation exposure

limits set forth for an uncontrolled

environment .The device has been evaluated to meet

general RF exposure requirement.

The device can be used in portable exposure condition

without restriction.

IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1.This device may not cause interference.

2.This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1.L'appareil ne doit pas produire de brouillage;

2.L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device has been evaluated to meet general RF

exposure requirement. The device can be used in

portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences

générales d'exposition aux RF. L'appareil peut être

utilisé dans des conditions d'exposition portable sans

restriction.
