

Instruction Manual

Thank you for choosing our product

Function(indoor use only):

1. Wireless charger;
2. LED table lamp;
3. Clock
4. Usb port

Specification:

Product Name: Golden Time

INPUT:AC100-240V 50/60Hz

OUTPUT:12V-2.A

Wireless charger:support 5W,7.5W,10W charging

battery for clock: AA x 1

Power in

Usb port

Wireless charging

Touch switch

1. Short press.Change light color
2. Long press adjust brightness

Insert lamp body into the metal cap on wooden base then screw the metal cap until it is tight.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is Subject To the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
