Smart Glasses Troubleshooting Guide

1. Product Connection Issues

Problem	Cause	Solution
BT Pairing Failure	BT is not enabled, the device is not in pairing mode, the distance for pairing is too far, etc.	Make sure the phone's BT is on. Bring the glasses closer to the phone and re-enter pairing mode to pair.
	Interference sources present, distance too far, incompatible BT versions, etc.	Stay away from interference sources. Keep the device within the effective range, usually 10 meters. Check if the phone's BT version is compatible with the glasses.
Device Not Recognized	Incorrect connection of the device, BT service anomalies, etc.	Reconnect the device. If ineffective, try restarting both the phone and the glasses to restore normal BT service operation.

8

2. Operation and Usage Issues

Problem	Cause	Solution
No Response on Power On/Off	Depleted battery, incorrect button operation, etc.	Charge the device and then try turning it on again. Ensure correct button operation, such as holding the power button for 2 seconds to turn it on.
Play/Pause Function Not Working	Incorrect operation mode, software conflicts, etc.	Confirm whether the current operation mode is correct, such as being in music playback mode. Try closing other apps that may conflict and then perform play/pause operation again.

3. Functional Characteristics Issues

Voice Assistant Wake-up Failure	Voice assistant not enabled, network connection issues, etc.	Check if the voice assistant is enabled in the phone settings. Ensure a normal network connection for the voice assistant to respond properly.
---------------------------------	--	--

9

Problem	Cause	Solution
Poor Call Quality	Loud ambient noise, weak network signal, etc.	Try to have the conversation in a quiet place. Check the network signal strength. If the signal is weak, move to an area with better signal reception.

4. Maintenance and Care Issues

Problem	Cause	Solution
Surface Scratches	Contact with sharp objects, improper cleaning methods, etc.	Avoid contact with sharp objects. Gently wipe with a soft dry cloth when cleaning. Do not use rough or corrosive cleaning agents.

10

FCC Caution :

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

11

FCC Caution :

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

12

Guarantee
