

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) with a semi-circular top edge. The board is populated with various electronic components, including several silver-colored cylindrical components (possibly capacitors or inductors) along the top edge, a central integrated circuit (IC) with numerous pins, and various resistors and smaller components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same green PCB from a different angle, showing the underside. The board features a large, rectangular area of bare copper or solder mask, with various electronic components and traces visible. The board is placed on the same blue textured surface next to the same black ruler, showing measurements from 0 to 100 mm.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is irregularly shaped with rounded corners. It features a central microcontroller, several capacitors, resistors, and a small antenna. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 6	 A photograph of the same green PCB from a different angle, showing the underside. It displays the solder pads, traces, and some components from the reverse side. The board is placed on the same blue textured surface next to the same black ruler, showing measurements from 0 to 100 mm.

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is semi-circular and features a microcontroller, several capacitors, and other surface-mounted components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 8	 A photograph of a smaller, rectangular green PCB with several components, including what appears to be a microcontroller and some passive components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 11	 A photograph of a small, square, black electronic component with a central circular hole and four solder pads. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component positioned between the 10mm and 30mm marks.
Solder Board-Component View 12	 A photograph of a rectangular electronic component with a black PCB and gold-colored solder pads. It features a central circular hole and various markings, including 'V01 20001202', 'V01 0-14', and 'V01 0-14'. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component positioned between the 10mm and 30mm marks.

Solder Board-Component View 13	 A photograph showing a small electronic component, likely a WiFi module, mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component is a small black PCB with several surface components and a white connector on the right side.
Antenna View	WiFi Antenna  A photograph of a green printed circuit board (PCB) with various electronic components. A red box highlights a component labeled "WiFi Antenna". The component is a small white module with a black label that includes the text "WiFi", "RoHS", and "CE". The PCB also features several other components, including capacitors, resistors, and a larger integrated circuit. A red line points from the "WiFi Antenna" label to the highlighted component.
