## TIPS FOR USE

1. Before first use remove the battery cover from the back of the remote and remove the paper from the back of the battery. Replace battery and cover.
2. Prepare your body for stimulation by emptying your bowels and cleaning the anus using an anal douche. We recommend the Bathmate Hydro Rocket, available at [www.bathmatepleasure.com](http://www.bathmatepleasure.com).
3. Apply a liberal amount of water-based lubricant such as Bathmate Anal Lube directly to your Prostate PRO and the anus. **DO NOT USE A SILICONE-BASED LUBRICANT.**
4. Relax and slowly insert your Prostate PRO.
5. Once your Prostate PRO is comfortably inserted you may wish to try vibration. Press and hold the on/off button on the base of the Prostate PRO. A double vibration and a solid green light above the on/off button will indicate that the Prostate PRO has been activated.
6. Press the on/off button on either the remote or the base of the Prostate PRO to commence vibration.
7. To cycle through the different pleasure settings, press the on/off button on either the remote or the base of the Prostate PRO. Use the +/- buttons on the remote to explore different intensities of each pleasure setting.
8. At the end of your play session press and hold the on/off button on the remote for 2 seconds to deactivate the vibration and gently remove the Prostate PRO. Press and hold the on/off button on the base of the Prostate PRO to turn off fully.
9. Clean and store your products safely.

## CLEANING, STORAGE AND SAFETY

To prolong the life of your Bathmate Prostate PRO we recommend that you follow the steps below:

Clean thoroughly before and after each use. Bathmate Anal Toy cleaning spray and wipes are available at [www.bathmatepleasure.com](http://www.bathmatepleasure.com).

Never use a silicone based lubricant as this can react with the silicone of your Prostate PRO and cause it to deteriorate. Use of silicone based lubricant will invalidate your warranty.

Storing your product in the storage case provided will prevent potential damage from sunlight and dust. Always store separately from other products.

Users of the Bathmate Prostate PRO do so at their own risk; neither the manufacturer nor retailer assumes any responsibility or liability for the use of this product. No medical claims are warranted or implied by use of this product. If pain or discomfort is experienced during the use of this product you should discontinue use immediately.

## PROSTATE PRO CARE INSTRUCTIONS

Take care when using your Prostate PRO for the first time, vibration can be intense.

- This product is not a children's toy. Adult use only.
- To avoid injury or aggravation of pre-existing conditions, this product should not be used on swollen or inflamed areas or skin lacerations.
- No medical claims are warranted or implied by use of this product.
- Clean your Prostate PRO after every use.
- Take care when cleaning your Prostate PRO, avoid getting the charging socket wet.
- Keep this product clean and ensure that it is fully dry before storing in a safe, dry place. Moisture can damage batteries and motors which will invalidate your warranty.

- Do not expose this product to water above 60°C.
- Always allow your Prostate PRO to cool down before storing in a safe place, it is electrical and motors get warm with use.
- Excessive usage of this product will wear out the motor and may cause it to overheat. If you feel that your Prostate PRO is getting unduly hot, switch off and allow to cool down before continuing use.
- Seek medical advice before use.

## CHARGING YOUR PROSTATE PRO

This product contains a Lithium rechargeable battery. If battery leakage occurs, stop using immediately and avoid contact with skin. If skin contact occurs, immediately wash the area thoroughly with warm soapy water. If liquid leakage comes into contact with eyes or body tissue, immediately flush thoroughly with water and see a doctor. Treat this product with care to avoid battery leakage, combustion and explosion. Do not expose the battery to excessive physical shock. Do not take apart or attempt to repair the Prostate PRO or battery. Do not touch the terminals of the Prostate PRO with any metal objects.

The product may be partially charged on purchase but we recommend a full charging cycle before first use. Charge for at least 2 hours before first use. Do not switch on or use the product during the first charge cycle as this may affect the battery capacity.

- Before charging, ensure that your Prostate PRO and the USB charging cable are dry.
- Insert the USB charging cable into a suitable USB charging port and connect to the Prostate PRO through the charging socket.
- The LED charging indicator will flash RED to indicate that the Prostate PRO is charging.
- Once fully charged, the LED indicator will glow GREEN.
- Once charged, remove the cable and store in the storage case provided.
- Never leave your Prostate PRO unattended whilst charging. If the battery becomes hot, smokes, swells, or gives off an odor during charging, terminate charging immediately.
- Do not use your Prostate PRO with the cable attached or whilst charging.
- Only use the USB cable supplied with this product.
- Do not use the charging cable if it is damaged.
- Always disconnect charger cable before cleaning.

The Prostate PRO will take approximately 2 hours to fully charge from empty and will give you approximately 1 hour use between charges.

## Environmental Protection

Products marked with this symbol should not be treated as household waste. Instead, take it to a recycling centre that deals with electrical and electronic equipment.

## Warranty

The Bathmate Prostate PRO is designed to provide many years of trouble free use. It is covered by a 2 year warranty against defective parts or poor workmanship. Full details of the warranty and what to do in the unlikely event that your Prostate PRO is faulty can be found at:

# PROSTATEPRO

Model number: C32-HM3

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
