Please Read This User Manual Completely And Keep It Properly

Product Parameter

Color: White
Material: Aluminum alloy, Silicone
Input: 5V=2A 9V=2.22A 12V=1.67A
Output: 5V=1A 9V=1.1A 9V=1.67A
Power: 5W 7.5W 10W 15W

Packing List

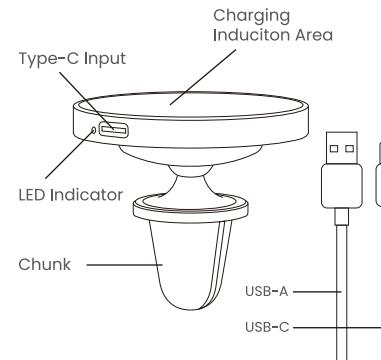

Product Description

This product includes an advanced, technological and textured 15W Magnetic Wireless Car Charger adopted aerospace-grade aluminum frame, and it is equipped with an A-C port charging cable to make the driver safer and more convenient.

Its smooth and compact design makes it easy to be inserted in your car air vent, which makes it an ideal partner no matter when you are on the go or on your business trip.

Charging safety protection measurements such as overheating protection, overcurrent protection and overvoltage protection will leave you no worry while charging your phone.

Use Environment

Operating environment temperature: non-tropical areas below 2000m above sea level.

Icon Description

The 10-year icon refers to the "effective life of environmental protection", not the product quality assurance period. Electronic products all contain toxic and harmful substances such as lead, mercury and cadmium. Once they are overused, toxic and harmful substances may leak or mutate, causing pollution to the environment, or cause serious damage to people and property. The term of "environmental protection use" means that all electronic products will be required to use within this effective period. We will no longer be responsible for the quality of the products due to the safety risks that arise after the safe use period.

Tips

Please read all instructions and warnings before using this product. Non-standard use will damage the product or personal safety.

- This charger is only compatible with the iPhone 12/13 series.
- The maximum output of this charger is 15W.
- Only use the cable provided with the charger.
- An Apple cable or other third-party cables may interfere with charging. This charger requires a charging adapter that supports QC or PD fast charging and an output of at least 18W.
- This charger will only attach to caseless iPhone 12/13 series phones, official MagSafe case, and SINDOX magnetic case. It will not attach to any other phones or cases.

SINDOX®

FCC Information

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installations. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
