

P6 TX antenna specifications:

1. Transmission frequency: 433.89MHz;
- 2, modulation: ASK;
- 3, antenna type: PCB antenna;
- 4, antenna gain: 0dBi;
5. The highlighted part in the following picture is the onboard antenna with a frequency of 433.89MHz, which requires the PCB board factory to match the impedance of 50 ohms;
