Product parameters

Basic parameters of charging bin

Input voltage	: D5V
Output interface	: Type-C Port
Battery capacity	: 300mAh/3.7V
Charging time	: <2h
Charging current	: 250mA

Earphone basic parameters

Bluetooth name	: IS
Effective distance	: ≥10m(无障碍)
Bluetooth version	: Bluetooth 5.3
Charging current	: 30mA
Charging time	: <2h
Battery capacity	: 55mAh(3.7V)

Failure exclusion

Unable to connect the problem

- View whether the status of the headset indicator has been connected to other devices, or is connected by other devices.
- Clear other Bluetooth devices, turn off the Bluetooth and then search.

Sound problem

Low sound: Check whether to wear correctly, adjust the volume output appropriately.

Different mobile phone models and different music software have different Bluetooth transmission power, so the volume output size will be different.

Headphone charging problem:

Check whether the charging position of the headset and the charging position of the warehouse have foreign bodies.

It takes a long time without using the loss for a long time to be full of normal phenomenon.

Charging warehouse charging problem:

Check whether the charging indicator is normal

Check whether the charging cable is inserted in place

Check whether the charging head is 5V security rules

Note

Storage and maintenance

This product should be stored in a cool and dry place.

The working temperature is 0-38℃.

Please use a soft dry cloth to clean the headset with daily cleaning.

Please allow the product to stay away from the thermal source, combustible gas or other clean/corrosive liquids to avoid long-term sunlight.

Avoid use or placement in any high temperature places.

If any component of this product is damaged, smoked, hot or releases the burnt taste, please stop using this product immediately.

The headset of this product has a waterproof function and can be used for non-water sports and exercise.

Please do not expose the charging box to any liquid.

After long-term storage, please charge again before use.

Hearing damage

Listening to music at high sound may damage your hearing, and the sound may be distorted.

Battery use

Replacement with a battery pack of error models may fail the safety protection.

The treatment of the battery pack into a fire or heating furnace, or a mechanical squeezing or cutting of the battery pack may cause explosion.

Placing the battery pack in a very high temperature environment may cause explosion or leakage of flammable liquid or gas.

The battery pack is extremely low pressure, which may cause explosion or leakage of flammable liquid or gas if severe bulging, do not continue to use it!

Instructions for charging security

Before the headset is put in the charging box, make sure that the headset is dry, and keep the charging port dry before charging. Please use the power adapter approved by relevant departments and meet the requirements of local regulatory requirements (Such as UL, CSA, VDE, CCC, it is not recommended to use a higher voltage power supply to charge the headset. It may take longer to charge the charging box with a third-party charging cable).

Instructions for wearing

A few people will have a special reaction to specific materials, when exposed to specific environments, or with soap, sweat, and ultraviolet rays within the product or before, such as potential irritating substances on the wearing - term contact with other substances, may cause skin allergies reaction. To reduce the risk of skin stimulation, do not wear the product on the body where the skin is injured. If your skin appears red, swollen, itchy or any other stimulus reactions, please stop wearing immediately. And consult the doctor!

Electromagnetic interference tips

There are places where wireless equipment is prohibited or should not be used (for example, places in your area, Medical places, etc.) do not use this product, otherwise it will interfere with other electronic equipment or cause other dangers. Some electronic equipment may fail due to the radio interference of the product (such as, some automotive electronic equipment).

Please contact the electronic equipment manufacturer for details.

Warranty service

Dear users, thank you very much for using our products. In order to effectively protect your rights and interests, it is clear that the distribution agents and the company should undertake the maintenance, replacement and return of products (hereinafter referred to as "three guarantees") responsibilities and obligations, please read the matters.

- The Product Warranty Card is the necessary proof for our company to provide free after-sales service within the warranty period.
- According to the principle of "three guarantees", if there is a product quality problem, contact the distributor with the "Product warranty card", and the distributor will provide service to the customer, and our company will provide service support to the distributor.
- The company promises that if any quality problem occurs within 7 days from the date of sale (subject to the date of valid bill, from the date of sale), the customer can return the product now for replacement or repair. From the date of sale from 8 days to 15 days of quality problems, customers can choose to replace and repair. From the date of sale. Within one year quality problems, customers can choose free maintenance. The product will enjoy lifetime maintenance if quality problems occur after the warranty period (all after-sales service points only apply for components and materials). Please fill in the "Product Warranty Card" with the dealer carefully.
- The following circumstances do not enjoy the three-guarantee service:
 - (1) Exceeding the term of three contracts;
 - (2) Damage caused by failure to use, maintain and keep the product according to the instructions;
 - (3) Damage caused by disassembly by the repairman who is not responsible for this product, otherwise it will interfere with other electronic equipment or cause other dangers. Some electronic equipment may fail due to the radio interference of the product (such as, some automotive electronic equipment).
 - (5) Damage caused by force majeure.

Please contact the electronic equipment manufacturer for details.

Note

The product battery is a built-in rechargeable battery. Do not disassemble and replace it by yourself.

You should use the correct method to charge the device.

Do not refuel the equipment near the fire source or being refueled by the sun.

The battery housing will destroy the safety device and cause the battery to explode or burn.

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
