

Difference Statement

Model : CL0412WE1PT-15, DRFM12-RGB, CL0414WE1PT-20, DRFM14-RGB,
CL0416WE1PT-25, DRFM16-RGB

Models "CL0412WE1PT-15" and "DRFM12-RGB" are named differently, the PCB circuit and wireless module are the same, and the power is 15W. Model "CL0414WE1PT-20" and "DRFM14-RGB" are named differently, the PCB circuit and wireless module are the same, and the power is 20W. Models "CL0416WE1PT-25" and "DRFM16-RGB" are named differently, the PCB circuit and wireless module are the same, and the power is 25W. We choose "CL0416WE1PT-25" for RF testing
