## WIRELESS MICROPHONE KIT USER MANUAL

**Model #: UM-WLMIC-KIT**

210.08 mm

**Please carefully read the following steps before using this product:**

- 1. Open the microphone receiver battery compartment and insert 2X 1.5V AA batteries.
- 2. Connect the receiver with a pickup device such as a mobile phone, camera, etc.
- 3. Press and hold the receiver power switch until the indicator light is on.
- 4. When the signal indicator of the receiver is green, it means the receiver and transmitter are connected normally.

**Note:**

- ※ When the receiver's screen or signal indicator shows low battery, replace the batteries as soon as possible.
- ※ If the monitoring earphone is continuously inserted into the earphone hole, it will consume power accordingly.

**Please carefully read the following steps before using this product:**

- 1. Open the microphone transmitter battery compartment and insert 2X 1.5V AA batteries
- 2. Plug the wired microphone cable into the MIC hole of the transmitter, and insert the audio cable into the INPUT hole if you want to monitor the sound
- 3. Press and hold the transmitter power switch until the light comes on.

**Note:**

- ※ This product presets 16 groups of frequency points. Press CHANNEL once to switch the frequency.

**Product specification**

**System specification parameters**

Modulation Mode	Digital Frequency Modulate
Frequency Range	UHF 550-580MHz
Preset Frequencies	16 (auto paring)
Frequency Response	75Hz~18kHz ± 3dB
Max. Deviation Range	± 50kHz (with level limiting)
T.H.D.	< 1.0% @ 1kHz
S/N	> 98dB
Working Range	Up to 50m
RF Carrier Stability	±0.005% (-10°C-50°C)

**Receiver**

Dimension	110 x 65 x 25 mm
Power Supply	3V
Power Consumption	150mA
Weight	80g (Without battery)

**The transmitter**

Power Consumption	110mA
Power Supply	3V
Dimension	110 x 65 x 25 mm
Weight	80g (Without battery)
FM point	16个

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
