

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a piece of electronic equipment (likely a signal generator or amplifier) sits on a wooden table. A red cable connects it to a power supply unit on the floor. To the right, another wooden table holds a color calibration chart. The background is a plain wall with a power outlet.
Radiation Emission Test Setup (Below 30MHz)	 A photograph showing a radiation emission test setup. A piece of electronic equipment is placed on a white, rectangular, shielded enclosure. The enclosure is surrounded by a metal frame. The background is a wall covered with white, square-shaped electromagnetic interference (EMI) shields. The floor is a dark, polished surface.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
