Safety Instructions:

- This product is for indoor use only.
- Before inserting the acrylic plate into the base, please remove the transparent protective film from both sides.
- Do not touch acrylic plate surface with your fingers as this will leave marks and may affect the 3D illusion.
- To insert batteries, slide off battery cover, insert new batteries and replace cover.
- Rechargeable batteries are to be removed from the product before being recharged and should be recharged under adult supervision.
- Do not mix standard and rechargeable batteries or new and old batteries.
- Always insert batteries with the correct polarity.
- Exhausted batteries are to be removed from the product immediately.
- Always switch the lamp off overnight or if left unattended.

Caution: Product contains small parts. Not suitable for children under 3 years.

Warning: Risk of strangulation. Loose cords and cables can present a strangulation risk to babies and children. Always ensure babies, children, cots and playpens are kept out of reach of cords and cables, at least 1 metre away.

How to Use

- Remove the transparent protective film from both sides of the acrylic plate.
- Plug in USB cable to power supply/computer or insert batteries.
- Press the power button to change colour. Each time the power button is pressed, the lamp will change colour. There are 7 colours (red, green, blue, yellow, cyan, purple, and white) plus an alternating option.
- Press the power button once on color changing mode to turn off.
- Free download "Synkitt" from Apple Store or Google Play Store to control by Mobile App with more fun.

Cleaning Instructions

- Wipe acrylic with a clean soft cloth.

Do Not: Use abrasive cleaners as it will damage the surface.

FCC warning:

1. This device should be installed and operated with minimum distance 20cm between the radiator&your body.
2. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
3. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
4. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
