

Circuit Description

TYPE-C power supply (DC-5V-9V power supply) with CH246D wireless charging IC, open PWM signal to 7708A MOS tube, and match the transmitting coil to charge the mobile phone

Frequency Range: 110-205kHz

Antenna Type: Coil

Input Voltage: DC 5V/2A, 9V/2A

Wireless Output Power: 5Watts/7.5Watts/10Watts/15Watts
