In the Power on state, press and hold the middle key for a long time for one second, the red light will be on

**Pairing**

When in the Power off, press and hold the middle key for a long time for one second, the red and blue lights flash alternately (or when the phone is disconnected)

**Connect a mobile phone**

Mode 1: Manual Connection

Setting Bluetooth  
Bluetooth ☒  
My device **D01** Connect

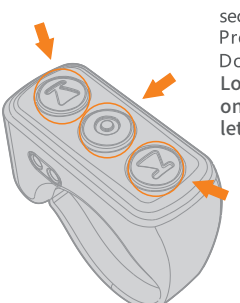

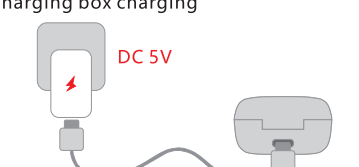

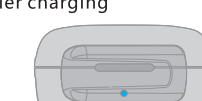

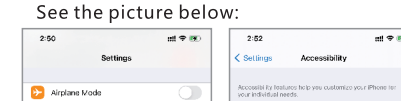

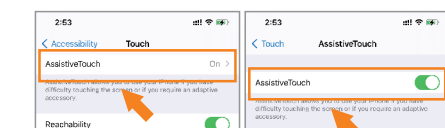

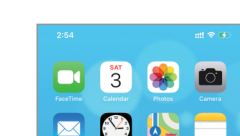

In the power off state, press and hold the middle key of the controller for one second, the red and blue lights flash alternately. The controller is in the pairing state. At this time, turn on the Bluetooth of the mobile phone and search for the device. The Bluetooth menu shows: **D01** and click, and complete the Bluetooth connection according to the prompt. If you can't find it please try turning off Bluetooth and turning it on again until the connection is completed

Mode2: Automatic Connection

After power on, the controller automatically connects the last connected mobile phone (ensure that the Bluetooth of the mobile phone is turned on)

User's Manual Model: D01

**FCC STATEMENT**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
