Description:

Wireless charger for smartphones under the Qi-standard.

Easy to charge your phone without cables, just put your phone on the charging plate.

Specifications:

Input: According to the printing on the back cover of the charging plate.

Compatible with the Qi-standard.

Package contents:

Wireless charging plate

Power supply:

The charger is recommended to power by a qualified AC adapter.

- During the connection between the digital product and this product, the digital product has priority to use the electric quantity of this product.
- When the digital product is fully charged, please take out the connecting line in time to avoid loss.
- If the product enters into protection status due to output short circuit or other reasons (LED has no display after pressing buttons), it can be recovered by charging activation via external charger.

Warning

Since this product contains Li-ion electric core, it's forbidden to dismantle the product shell arbitrarily to avoid possible damage to electric core or other dangers.

It's forbidden to arbitrarily dismantle, squeeze, puncture this product or put it in short circuit, water, fire or exposed to an environment with a temperature higher than 60°C (140°F).

FCC Statement

This device complies with Part 18 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
