#### \*\*About Frequency of use

Use it once in the morning and at night for 10 minutes each time

#### \*\*Caution before use

1 Do not handle the product when hands are wet.

2 Please remove contact lenses, false eyelashes and other items before use to avoid discomfort during massage.

3 Discontinue use and consult your doctor if you feel pain or burning in your eyes.

#### \*\*About the post-use state

The massage area may turn red for a short time, but it will return to normal after a while. 2 Due to a long time of closed eye massage, after the massage will be short, blurred vision, closed eyes after a rest can return to normal.

## Product operation

### Charging methods

Computer USB interface/portable power /5V 1A power adapter

1. Connect the USB charging cable with the machine and remove the USB charging cable after the battery is full.
2. The red-light flashes slowly during charging and turns green after the power of machine is full.
3. Charging time is about 2-3 hours. After the battery is full, it is necessary to avoid long continuous charging, which will cause damage to batter life and machine.
4. Voice prompts alarm in the low power during use. Please stop use and use it after full charge.

### Wearing method

1.Unzip the product elastic band

2.Wear this product on your head and adjust the angle

3.Press and hold the power button for 2 seconds to turn on the product, and the product starts to work after the voice broadcast is completed.

4.Please remove contact lenses, glasses, false eyelashes before use

In the process of charging, the product does not support startup work.

The product starts the self-protection program and stops working.

## Operation Methods

1. Press the button “on/off” for 2 seconds can turn on the machine and background music function, the green light on the machine starts shining.
2. When the machine is in the middle of working, press the button “on/off” for 2 seconds can turn off the machine the green light will be off at the same time.
3. Short press the button “on/off” quickly in the state of working which can switch the mode, it has 3 different modes to change, once the machine turns on, the massage time is automatically set up in 10 minutes.

Mode 1 (eye exercise mode) Vibration + Heating + Music

Mode 2 (eye beauty mode) Vibration + Music

Mode 3 (sleeping mode) Soft vibration + Heating + Music

Bluetooth name: UEYE-2

After turning on the device, you can directly use the mobile phone to connect to the Bluetooth device to play music.

4. There are voice prompts for disconnection and connection (after Bluetooth connection, background music is turned off), and the Bluetooth is turned on by default.

5. Background music: Background music is turned on by default after power on. When Bluetooth is not used, background music will play automatically.

6. Double click the power button to manually turn off the background music. (Only turn off the background music, not the prompt tone)

7. Low voltage warning: about 3.5V, if the red light starts shining during the use, it means the machine is out of battery, please charging immediately until the light is turning to green color which means the power is full of. (The voice prompts will remind you when the power is low)

When using this machine, please confirm whether the product has enough power.

If the power is too low and the machine cannot be started up, please charge it before using.

## Failure checking and Battery dismantling steps

Basic Failure	Possible reason	Testing/Solution
The machine can't be turned on	The USB wire doesn't plug in the right way	Charging
	The battery is in low power	Check the USB wire and connect with machine correct

Product Name	Smart Eye Massager uEye 2
Rated Voltage	5V
Rated current	1A
Rated Power	5W
Rated Time	10min
Heating Temperature	45 °C
Battery	1000mAh
Battery Type	Rechargeable Lithium Batteries
Product Weight	190g
Packaging Accessories	Massage 、 Charging cable 、 Manual
Main Material	PC、 ABS、 Silica gel
Product Size	216*114*80mm
Executive Standard	GB4706.1-2005 、 GB4706.10-2008

# The name and content of harmful substances

Harmful substances						
Components	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Electric wire	X	O	O	O	O	O
Heating elements	X	O	O	O	O	O
Motor	O	O	O	O	O	O
Electronic	X	O	O	O	O	O
Plastic	O	O	O	O	O	O
Battery	X	O	O	O	O	O

The form is compiled in accordance with SJ/T 11364

O: Shows the content of the hazardous substance in all materials of the part is below the specified limit requirement.

X: Indicates that the content of the hazardous substance at least one of the homogeneous materials of the part

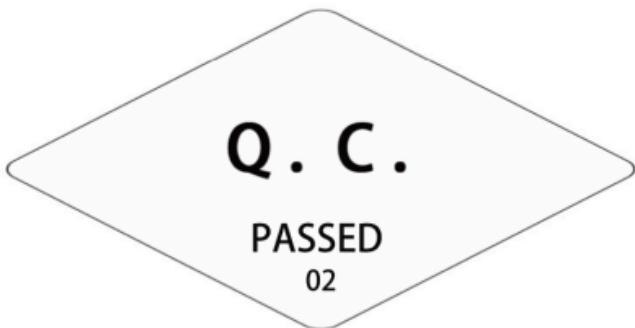

exceeds GB/T 26572-2011 the specified limit requirement.

Note:

\*The environmental protection use period is the number 10 in the logo, representing ten years, which means that the harmful substances contained in electrical and electronic products will not leak or mutate under normal use conditions.

\*This label explains: This product can be used with confidence within the environmental protection use period, and should be recycled after the environmental protection use period is exceeded.

\* Please keep this warranty card properly, the card (or copy version) needs to be sent to seller with machine together when functions are failure.

**Born For Health**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
