

Rechargeable retractable pole LED floor lamp

Operating Instructions

NOTICE – risk of material and property damage

- Do not connect the product to a computer, as the high charging current could damage the computer.
- Do not use if there is visible damage to the product or the connection.
- Do not cover the product during operation, and ensure that there is sufficient air circulation.
- Protect the product from: impact, direct sunlight, sub-zero temperatures.
- Do not place any heavy objects on the product or its connection.
- Lay the connection in such a way that it is not crushed or bent and does not come into contact with hot surfaces.
- Turn off and unplug the product immediately in case of damage or malfunction.
- Unplug the power adapter from the outlet before a storm.
- Only use original accessories from the manufacturer so as not to impair the functioning of the product and to prevent possible damage.
- To protect the surface, do not use corrosive or abrasive cleaners. Wipe the product with a damp cloth as required. Then dry it off.

- 1 x English User Manual
- 1 x RF Remote Controller
- 1 x Package of Screws

Check the scope of delivery for completeness, and the components for transport damage. If the product is damaged, do not use the product, but contact customer service immediately.

 A USB mains adapter (DC 5V 1A) is also required. This is not included in the delivery!

Product overview

- 1 Lamp head
- 2 LED
- 3 Flexible lamp neck
- 4 Control center and Indicator light
- 5 Socket
- 6 Retractable Pole
- 7 Base plate

Control Panel Usage

Before first use

- Remove any packaging films, stickers or transport protections from the product. **Never remove the type labels!**
- Screw the retractable pole (6), and the base plate (7) together.
- Charge the battery (see the chapter "Charging the battery").

Charging the battery

PLEASE NOTE!

- Use a USB mains adapter that is designed for 5 V and at least 1000 mA. Do not connect to a computer!
- Make sure the power outlet the USB mains adapter is plugged into has been properly installed. The socket must be easily accessible, so that the power connection can be quickly disconnected.

- Connect the USB cable to the lamp's socket (5) and a USB mains adapter.
- Plug the USB mains adapter into a socket.
 - The blue indicator light (4) blinks when the battery is low.
 - While charging, the blue indicator light (4) breathing effect.
 - When the indicator light stays blue, the battery is fully charged.
- After charging, unplug the USB mains adapter from the socket and then the USB cable from the lamp's socket.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
