Charging Your Speaker

Micro USB Plug

USB Plug

1. The USB charging cable has a Micro USB plug and a standard USB plug.

2. Insert the USB charging cable's Micro USB plug into the the speaker's charging port.

3. Insert the USB charging cable's standard USB plug into the USB port of a computer or suitable 5V 1A USB charging adapter.

(red) = Charging
(off) = Charging Complete

4. The LED Indicator Light will turn red when the speaker is charging and will turn off when charging is complete.

NOTES:
--When battery power is running low, your speaker will emit a voice . Recharge your speaker's battery when you hear this sound.
--Remove the charging cable once charging is complete.
--Overcharging could reduce the life of the battery.
--A charged battery will lose its capacity if it is not used on a regular basis.
--Make sure the rubber battery compartment seal is securely closed once charging is complete and before use.
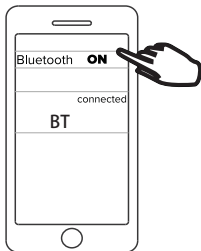

Important: To avoid a complete discharge of the battery, charge your speaker at least once every six months.
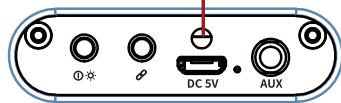

Bluetooth Pairing

PRESS & HOLD
2-3 SECONDS

1. Press and hold the Power button for two to three seconds to turn the speaker On.

Pairing Mode
Blue Flashing LED Lights

2. The LED Indicator Light will flash blue indicating your speaker is in pairing mode.

3. On your phone, go into the Bluetooth page in the Settings app. Make sure Bluetooth is turned on before connecting to the available device 'SC-1585TS'.

Paired
Blue Solid LED Light

4. The LED Indicator Light will turn solid blue indicating your speaker and phone are paired. The LED Indicator Light will slowly Flash blue when music is playing.

TWS Paring (for two Speakers)

If you have two SC-1585TS speakers, enjoy high-quality sound by using the TWS pairing function.

1. After powering on both speakers, double press either one's ② button quickly. After a short amount of time, you will hear a tone to indicate the two speakers have been paired successfully.

2. On your phone, go into the Bluetooth page in the Settings app. Make sure Bluetooth is turned on before connecting to the available device BT. You will hear a voice from both speakers to indicate that the two speakers and your phone are paired.

Notes:
1. Please be sure that both speakers are close to each other when pairing. After being paired successfully, the distance of the two paired speakers should be within 6-8 meters, avoiding any physical barriers between them.

2. The TWS function is only available when your speakers are in Bluetooth mode. When in AUX mode, paired speakers will automatically disconnect from each other.

Disconnect TWS Paring (for two SC-1585TS Speakers)
To disconnect two paired speakers, double press either one's , ② button quickly. You will hear a tone to indicate the two speakers have been disconnected.

Using Your Speaker

Powering Your Speaker:
Press and hold the power button for two to three seconds to turn the speaker On and Off. If you have already paired your speaker to your phone (or another Bluetooth compatible device), the two devices will automatically remain paired each time your speaker is turned On.

Light Control:
Press the ① button quicky to toggle through the lighting modes .

Music Control:
You can adjust volume and playback settings on your phone or connected audio device.

Auxiliary Input Mode:
To use your speaker with devices that are not Bluetooth enabled, plug one end of a standard 3.5mm audio cable into the AUX Jack on the rear of your speaker. Plug the other end of the cable into the AUX jack on your audio device.

WARNING: When an audio device is connected to your speaker via the Auxiliary Port, the rubber battery compartment seal must remain open. As such, your speaker will not be water resistant and should be kept away from water.

Maintenance & Care
-Before using your speaker, inspect the ports to make sure they are clear of dust and debris before charging.
-Use a soft cloth to clean your speaker. Never use any harsh chemicals or detergents.
-When your speaker is not in use, it should be stored in a cool, dry place.
-Never tug or yank on the USB charging cable when it is connected to your speaker and a wall outlet. Connect and disconnect cables carefully.
-Never expose your speaker to high temperatures or extreme cold.
 -Please recycle or dispose of your speaker properly based on the laws and rules of your municipality. Contact local recycling facilities and/or the manufacturer of your speaker for further information.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
