

# Wireless Optical Mouse

## Usermanual

Caution: To use this device properly, please carfully read the usermanual.

### •Productdescription

1. Ergonomics appearance design ,comfortable hand reduce hand fatigue
2. Strong anti-interference ability , working distance 10M.
3. Intelligent power saving design, long standby time.
4. Reliable 2.4G USB received will make you connection easier to the device.
5. Accurate positioning. maximum acceleration: 10G Highest return:250HZ

### •Install

Plus and play

The wireless mouse supports plus play.the computer will detect the mouse automatically after connecting.

### •Specification

Connectivity:Wireless2.4GHZ

Working distance: 10 meters

Number of buttons:5

Lifespan:3 Miller keystrokes

DPI: 800/1200/1600

Powersupply:1\*AABattery

Productsize:109\*61\*33mm

Operatingplatform: WindowsXP/Linux/MacOS/Vista/7/8/10/11.

### •Packagecontents

- Wirelessmouse
- USBReceiver
- InstructionBook

#### FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

#### FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Made in China
