Made in China

The product is too small in size, so the label is printed in the outer packaging and the user manual

1. Each reel of tape contains 1000 units (20 compartments are left empty at the front and back for unused products).
2. After tape is taped, place the tape in a humidity level card and desiccant for vacuum packaging.
3. After vacuum packaging, place the tape in beer cartons (1000 units total).
4. Each outer carton contains 5 beer cartons, for a total of:  $1000 \text{ units} * 5 = 5000 \text{ units}$ .
