
RYYT01-1 User Manual

Product introduction

- 1、Product power supply is DC12-29V.
- 2、Support Bluetooth music playback.
- 3、Supports interplay with multiple devices.
- 4、Support mobile APP to change the Bluetooth name.

Product diagram

Key function

- 1、Single can be used as a classic Bluetooth music playback: power on automatically, the phone directly search product Bluetooth connection to play music.
- 2、Multiple units in the same space can be used as the main and secondary computer interconnection playback: After multiple machines are powered on automatically, the mobile phone directly searches for product Bluetooth, will search for multiple products Bluetooth (how many machines are powered on), click on a product Bluetooth connection, the connection success after the connection prompt output that one will be used as the host, the host background will automatically pair with the rest of the machine interconnection into the main and secondary machines. Mobile phones play music first have sound output and then all secondary phones have sound output.
- 3、Mobile APP to change the Bluetooth name: Open the downloaded SPP Bluetooth Serial Port APP on the mobile phone and enter the connection to change the Bluetooth name.

Technical index

Technical index

Item	Description
Bluetooth standard	Bluetooth 5.3
Frequency	2402 MHz ~ 2480 MHz
Classical distance	≥15M
Primary and secondary interconnect distance	≥20M
Power output of power amplifier	10W*1
Mains supply	DC12-29V
Signal-to-noise ratio (SNR)	≥90dBA

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
