Words from the Product Designer

Hi Parents,

Creating a familiar and soothing environment is essential for your baby's comfort, whether at home or on the go. That's why we designed the Glocusent Baby Soother, a portable and versatile companion that helps your little one feel at ease in any setting.

With the advanced NI4 sound isolation, this device ensures that outdoor noise—whether from cars, hotels, or parks—doesn't disrupt your baby's peaceful moments. It seamlessly blends comforting sounds with real-world adaptability, offering:

Compact and lightweight, perfect for travel or outings. A high-capacity battery provides extended playtime, while a rich selection of soothing sleep tracks includes specially composed music for calming infants. It supports Bluetooth connectivity, allowing you to play favorite tunes from your phone, and features a multi-level timer and memory function for a truly personalized experience. Additionally, the portable sound machine includes a warm night light that provides soft, ample illumination at night.

Whether at home or on the move, the Glocusent Baby Soother creates a consistent, calming atmosphere, ensuring your baby enjoys restful sleep and comforting sounds anytime, anywhere.

Mason
Founder & CEO of Glocusent

Songs

This product includes a total of 34 unique built-in songs, comprising 14 white noise tracks and 20 musical pieces.

Warm Night Light

Three-level adjustable warm night light provides soft and sufficient illumination at night.

Timer Setting

You can set a countdown timer for automatic shutdown at intervals of 15,30,60,or 120 minutes to suit your needs.

Bluetooth Playback

This feature supports wireless Bluetooth connectivity, enabling you to listen to music from Bluetooth devices through this unit.

Memory Mode

Automatically remembers the last power-off state (mode, track, volume, brightness, timer).

Product Details

Type-C Charging Port

Short press to turn light on/off and adjust brightness

Press and hold at any brightness level to turn off the light directly

Note: The night light can be turned on independently when the device is powered off

Precautions

- Use a 5V output wall plug to make sure the portable sound machine is working at its full capacity.
- Please avoid placing this light in an extreme temperature environment (either too hot or too cold).

Disposal: When you are ready to dispose of the product after wearing it out, please make sure to follow the instructions of your local government for environmental and safety purposes.

How to Charge the Portable Sound Machine

- Simply plug the provided USB-C cable into the charging port in the portable sound machine, and connect it with a 5V power charger.
- It takes about 2.5 hours to fully charge the portable sound machine.
- Please fully charge the product before first use.

Note: The charging indicator light will turn solid red while the portable sound machine is charging and will turn solid white when it is fully charged.

Appuyer brièvement pour allumer/éteindre la lumière et régler la luminosité.

À n'importe quel niveau de luminosité, appuyer longuement pour éteindre directement la lumière.

Remarque : Lorsque le dispositif est éteint, la veilleuse peut être allumée indépendamment.

About Glocusent

Ever since we saw our first sunrise illuminate the beautiful Colorado Springs, we've become a lighting product company that believes that light is a critical element to capturing the magic in moments. No progress was ever made in the dark, and we're here to deliver that light to ensure that our users are always progressing. From neck lights to portable ring lights, every one of our products is designed to provide light in a way that's simple and convenient. At Glocusent, we refer to three core principles; glory, focus, and moments.

Glory: We're about bringing light to your life, and we believe life is filled with glory, whether that's in your career or with your family. Let us shine a light on that glory.

Focus: Our team at Glocusent is focused on creating innovative lights and lamps that are convenient, smart, and tailored to its user. In the wise words of Roy T. Bennett, "Life is short; focus on what really matters; you should change your priorities over time." With our lights, you can focus on what matters.

Moment: Moments are fleeting. Your lives are filled with beauty, romance, and happiness. Our innovative lights are there to help you capture the moments.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

- English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

- French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé sans restriction dans des conditions d'exposition portables.
