

1. Scope:

This document is intended for the Genio system 2.1 FCC certification process (required by the FCC).

It includes the external photos of certified system components.

2. Background:

Nyxoah's Genio® system 2.1 is intended to be operated in the US hence required to be FCC certified or SDoC (self-declaration of conformity).

Genio® system AC2364 is required to have the certification process. Other Genio® system 2.1 components compliance will be using the SDoC process.
