7

TECHNICAL SPECIFICATIONS

- Bluetooth version: 5.0
- Bluetooth transmission distance: 10m
- Frequency response range: 2.4GHZ-2.48GHZ
- Protocol support: A2DP, AVRCP, HSP, FLAC
- Drive unit: Ø40MM
- Impedance: 32Ω
- Frequency response range: 20HZ-20KHZ
- Sensitivity: 100dB
- Battery capacity: 700mAh
- Playing time: 6-8 hours
- Standby time: 150 days
- Charging time: approx 2 hours
- Working environment: -10°C to 50°C, humidity: 0-95%
- Product size: 215*45*180mm
- Product weight: 280G

8

FREQUENTLY ASKED QUESTIONS

- No sound can be heard from the headphones:
 - Confirm that the headset is working.
 - Verify that the volume level of the headset is appropriate.
 - Confirm that the headset is properly connected to the phone.
 - Confirm that the headset is in the normal operating range.

- The headset does not work well for calls:
 - Check that the phone is in an area with a strong signal.
 - Please ensure that the headset is within the effective use distance of 10 metres and that there are no obstructions between the headset and the phone.

Note: Please note that technical specifications are subject to change without notice.

9

MAINTENANCE & REPAIR

- Please ensure that products with lithium batteries are charged at least once every three months if they are not used for a long period of time.
- Maintenance for the earmuffs: wet a towel with shower gel, hand soap and rub out bubbles to wipe the surface of the earmuffs, then wash the towel and wipe twice and dry.
- Keep the product dry and do not leave it in a damp place as this may affect the internal circuitry.
- Do not leave the product in the sun or in areas with high temperatures. High temperatures can shorten the life of electronic components, damage batteries and deform some plastic parts.
- Do not leave the product in an excessively cold place as this may damage the internal circuit boards.
- Do not attempt to take the product apart. The product may be damaged by unprofessional personnel.
- Do not drop, vibrate strongly or hit the product with a hard object as this may damage the internal circuitry.
- Do not use strong chemicals or cleaning agents to clean your headphones.
- Do not scratch the surface of the product with a pointed body to avoid damaging the casing and affecting the exterior

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
