

WLM390-TLA-7W-01

Wireless charging LED desk lamp

Product features

1. Fully-dimming function × wireless charging
2. 5 lighting modes × 0.5/1 hour timer
3. Use soft light panel, illuminate vast area, uniform light distribution.
4. With flexible hoses, adjust lighting Angle
5. 7W led save electricity, life for 50000 hours
6. DC5V (USB) power supply can match the USB charging, mobile power supply, computer, easy to use.

Product Data

Model : WLM390-TLA-7W-01
Power consumption : 7W
LED : 40 PCS SMD2835
Input Voltage : 120V/60Hz
Color Rendering Index : 90+
Material : plastic&iron&aluminum
Output:5V/2A,10W

Assembling and Notice

1. Do not place the product in a sloping or non secure desktop, so as not to slide down the damage.
2. Do not let the sunshine, rain, or damp, so as not to affect the use.
3. Do not look directly into the light source, So as to avoid eye discomfort.
4. LED light source products can not be replaced.
5. Please select the correct input voltage for the lamp DC5V-2-3A.
6. Do not disassemble, change the product structure, to prevent electric shock or fire, if the product is abnormal, please contact us.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
